- 5. Girt
- 6. Roof Panel

- 7. Wall Panel
- 8. Insulation
- 9. Eave gutter

- 10. Ridge Vent
- 11. Circular Vent
- 12. Roll-up door

- 13. Single door
- 14. Window
- 15. Skylight

Project office of HCC

- 16. Canopy
- 17. Parapet
- 18. Crane beams and rails
- 19. Mezzanine

## OUR PRODUCTS

### PUF PANEL SYSTEMS

**PRESTAR** PUF Panel Systems are specifically designed to cater to all kinds of Cold Storage, Telecom Shelters, Living Shelters & Clean Room Enclosures. The high performance and quality offered by these systems ensures extra strength, better overlap, weather tightness, corrosion resistance, low maintenance cost and good aesthetics.

**PRESTAR** PUF Panel Systems consist of self interlocking sandwich insulated panels. The modular design offered by these panels enables easy & quick installation along with durability.

These panels are interlocked with each other using Cam Lock Systems or through Tongue & Groove arrangement, which ensures a precise interlocking of panels and dimensional accuracy. This eliminates the risk of thermal bridging & provides an air tight joints between panels after erection.

### PREFAB HOUSES / PRE FAB SHELTERS

We are one of the leading manufacturers of Pre Fabricated House / Pre Fab Huts in the Eastern India. We offer a wide range of readymade building solutions, which are convenient and economical for domestic building needs which save you the hassle and headache of having to find material and labour, and the related costs that come with it. The product is commonly used by the Defence Departments, Primary School, Farm House & Health Centres, Building Project Work Sites etc.
